

# H&D DESIGN 100

**T**he past ten years have been an exciting time in the world of design. To celebrate some of the highlights of the decade, HOME & DESIGN's editors have compiled the H&D Design 100—a collection of one hundred products and local places that have debuted since 1999. We chose them because they not only exhibit excellence in design but also have the staying power to become tomorrow's classics, from iconic furniture, fabric and lighting designs to unique public spaces. We also salute innovations we simply could not do without. Here's to a momentous decade in design!

NOTE: Products are available at manufacturers' area locations or via their Web sites unless otherwise stated.

## 1 A Place for Everything

SieMatic puts a premium on innovative design and organization. The award-winning SC 10 kitchen from the German manufacturer's ModernCollection is clean-lined and minimalist, with a combination of Zebrano wood and magnolia white finishes. Above, beech wood elements inserted into drawers allow for maximum storage and efficiency. Available at KONST, Bethesda. [www.siematic.com](http://www.siematic.com)
